CONTENT

Real world shift starts with a change at the root of how we perpetuate current values and ways of thinking, it starts with a change in education. A new culture of learning is needed to support the paradigm shift toward sustainability. The insight of future social science and humanities graduates is vital to innovating and implementing sustainable solutions for better futures. As change lies in the hands of the students, then it is down to the teachers to empower them with the skills and understanding to find their place in the sustainability movement. Social science and humanities teachers play a central part in this evolution of learning which will determine the Earth's future ecosystem and social contexts.

OBJECTIVE

Improving knowledge, skills and competences of social sciences and humanities teachers, especially in the area of the impact of research on sustainable innovations and Sustainable Development Goal.

TARGET

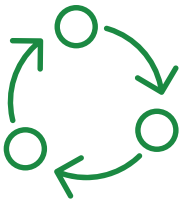
Social sciences and humanities teachers working in Higher Education Institutions and wanting to explore the impact of social sciences and humanities for sustainable futures

TOPICS ADDRESSED

- The SSH and contemporary social challenges;
- Interactive teaching (Real World Learning) methods;
- Innovation management;
- Measuring the Impact of Social Sciences and Humanities Research

Co-funded by the Erasmus+ Programme of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents, which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein. (Project Number: 612364-EPP-1-2019-1-LT-EPPKA2-KA)



METHODOLOGY

The course is divided in 4 thematic modules. Each module starts with a short introductory video, followed by the main theoretical body, practical assignments where you apply what you have learned in your teaching and research practice.

LEARNING OBJECTIVES

- discover Interactive Teaching methods
- gain a grounding in Social Innovation and Knowledge Management
- create a Real-World learning environment in classes
- evaluate the political agenda
- measure the impact of social sciences and humanities research

REGISTRATION

The course is free but has mandatory registration on SHOUT HUB.
For a step-by-step instruction on how to register and access the course, Check our user manual.

CONTENT

Students SHOUT is an innovative approach to learning that gives students the skills and awareness they need to put their studies into action and work with communities and organisations to make a difference and promote change. They can learn the sophisticated communication, storytelling, and collaboration skills they need to explain ideas and create a supportive environment for meaningful teamwork. By focusing on project management and policy making, students will deepen their understanding of how to effectively manage resources and bring people together for a common goal and plan. This course enhances employability and strengthens analytical skills, laying the foundation for students' future endeavours and projects.

OBJECTIVE

improving knowledge, skills and competences of SSH academic students for adopting a more entrepreneurial and market-oriented mind-set.

TARGET

Social Sciences and Humanties students.

TOPICS ADDRESSED

Communication and Storytelling; Project Management; Collaborative Work; Policy-Making and Community Engagement

Co-funded by the Erasmus+ Programme of the European Union

CONTENT

How do we bridge the gap between innovative ideas and real-world change? Social science and humanities (SSH) research holds the keys to solving a wide range of the urgent social and environmental problems we face, but there are so many barriers in the way of bringing those solutions out and putting them into play in the real world. SHOUT presents you a new course to give SSH professionals the understanding, motivation and creativity – the tools needed to set sustainable projects in motion!

OBJETIVE

Promote reskilling and upskilling processes as continuous education offers addressing SSH professionals. This course is focused on practical and vital skills of how to make projects happen and effect positive change for real people in local communities and beyond, taking action in wider societal challenges.

TARGET

Social Sciences and Humanities Professionals working in:

- industry contexts;
- 3rd sector organisations;
- Research;
- tech-transfer and innovation professionals.

TOPICS ADDRESSED

- Social Project Management;
- Policymaking and Community Engagement;
- Corporate Social Responsibility;
- Fundraising.

Co-funded by the Erasmus+ Programme of the European Union
